# Specifications

Controlled via USB port. Requires Windows XP Pro/Vista/7. Min. 800 MHz, 512M RAM. 1024x768 graphics display recommended for the shop monitor. 1280x1024 graphics display recommended for the design monitor (if separate from the shop monitor). If the shop computer will not be networked, an additional USB port for file transfer is useful. ShopBot Control Software produces simultaneous movement in three - five axes (4th and 5th axes used with optional equipment such as 2nd Z axis, indexer or five-axis head).

## ShopBot PRSalpha Specifications

Drive Motor: Closed loop steppers with 7.2:1 gearboxes. With constant positional feedback to the drivers, if an obstruction is hit or cutting too fast the drivers will attempt to correct the position of the motors before activating an alarm, stopping the machine and displaying an alarm on the monitor. Once reset and homed, cutting should be able to be resumed.

# Meet the new heavy hitter in the Desktop tool line-up: ShopBot Desktop MAX ATC

This newest addition to our desktop CNC tool line has the industrial precision and power capabilities of our other desktop routers—but has the added efficiency of an Automatic Tool Changer (ATC). An ATC reduces production time by quickly and robotically changing cutters between tool paths. This eliminates the need to change and zero tools individually and allows you to complete jobs in a fraction of the time.

The ShopBot Desktop MAX ATC has a 36" x 24" work area, and is available with two different deck options: an aluminum t-slot deck or a Universal Vacuum hold down deck. Take full advantage of the flexibility our tools and the productivity of automation in the smaller footprint of a ShopBot Desktop MAX ATC.

## ShopBot Warranty

ShopBot warrants that the system will perform in substantial compliance with the instructions and documentation supplied. ShopBot further warrants that all components of the tool, except for those parts subject to normal wear (e.g. pinion gears, gear rack, springs), will be free from defects in material or workmanship for two years from the date of purchase. SELLER'S SOLE OBLIGATION AND YOUR EXCLUSIVE REMEDY under this Limited Warranty and, to the extent permitted by law, any warranty or condition implied by law, shall be the repair or replacement of parts, without charge, which are defective in material or workmanship and which have not been misused, carelessly handled, or mis-repaired by persons other than Seller. ShopBot reserves the right to use new or ShopBot remanufactured components for warranty replacement. Components repaired under warranty repairs will be returned to customer at ShopBot's expense via surface mail. Overnight or express shipping will be at the customer's expense. There are no warranties extending beyond the above warranties. All resold products constituting accessories and secondary components (such as, but not limited to, routers, spindles, vacuum pumps, etc) are subject to their own manufacturer's warranties.
